Union Men Blame Constabulary Forces for Violence In West Va.

SHORTRIDGE HEARS MINERS' GRIEVANCES

Ex-Slave First Witness Before Senate Committee In Federal Probe

By HAROLD D. JACOBS United Press Staff Correspondent

WILLIAMSON, W. Va., Sept. 19. - Senators Kenyon and Shortridge today questioned West Virginia constabulary and county authorities concerning the troubles which led to the recent civil war between union miners and deputies.

Questioning of miners and their families already has brought out the union side of the case.

The alleged refusal of coal operators' property to check the coal mined and to pay up on a basis of other weight or measurement and the insistence of operators that mi-ners and their families trade at company-owned stores were the princi pal grievances put forward by the

R. O. Kirk, miner, went into elaborate detaails of the working conditions in the mines and the grievances of the miners. He said he used to mine eight cars daily at a dollar a piece, but that the cost of powder fuses, etc., amounted to from \$3.50 to \$4.50. Besides which, he had to furnish his own tools. He asserted that the union miners did not insist upon the closed shop, but were willing to work alongside nonunion men. The latter were discharged as soon as they joined the union, he asserted. It is understood that the exchange proposes to make pro-vision for the purchase of the government vessels soon. Whit-comb will report that the plan is to ship 5,000 carloads a year for three years at sliding scale rates, the first year's rate to be 78 cents a box.

The meeting today is one of the most important citrus growers' meetings held in the county in months.

Sinn Fein Fears Premier Plans To Force Surrender

DUBLIN, Sept. 19.—President De Valera today sent a new note to Lloyd George asking whether the British premier in proposing an Irish peace conference, is demanding an Irish surrender or calling for a free and unprejudiced conference.

President De Valera and his colleagues were faced with a definite choice between withdrawal of their insistence upon rcognition as a sovereign state or forfeiting the right to a conference. The latter decision might mean war-a step which it was not believed here would be taken without consulting the Dail.

Lloyd George stated in his note to which the Sinn Fein cabinet is now replying that De Valera must withdraw from his correspondence the paragraph in which he states Ireland can only negotiate with Britain as a sovereign state.

The Irish president referred to Lloyd George's reiterated demand that the Irish abandon their claims to sovereignty before a conference can

"Nothing Doing" in the Way of a \$25,000 Contribution to the "All the Year" Club

The Register is utterly and unalterably opposed to the proposition that Orange county shall contribute \$25,000 to the "All the Year Club"—or any other club, league or association-for the purpose of co-operative community advertising in national newspapers and magazines.

This proposition is to be presented for consideration at the meeting of the Associated Chambers of Commerce, at Huntington Beach, next Wednesday, and the Register respectfully suggests that delegates think twiceor three times, if necessary,—before giving it their approval. Co-operative advertising is all right. "All-the-Year" advertising is

good. But for Orange County to contribute \$25,000 to a fund to be expended by Los Angeles—at least under the direction and control of Los Angeles-while many other counties, in a position to be more largely benefitted than Orange, contribute only \$3000 or \$5000—well, "that is something else again. The theory upon which Orange County's quota is placed so much

a position to derive more benefit from the proposed advertising than the interior counties. Moreover, the "All the Year Club" "needs the money" and Orange County has it. But while it is true that Orange County is more accessible from Los Angeles and has a better summer climate than Riverside, for instance, it is also true that Riverside has a great tourist hotel and is much more widely known and has a far better reputation as a tourist resort than any of the towns of Orange County. These advantages, these assets susceptible of be-

The Register would not oppose the endorsement by the Associated Chambers of Commerce of a proposition to raise an equitable quota of the "All-the-Year Club" fund; but it feels confident that it expresses the sentiment of many of the most public spirited men and women in the county when it urges "nothing doing" in the way of a \$25,000 quota.

> FORBES FIELD, PITTSBURGH, Pa., Sept. 19.—The Pittsburgh Pirates climbed a full game closer to the leading Giants in the National league race this afternoon. With the veteran Babe Adams hurling a clever game against Phil Douglas the fans witnessed one of the best games of the season. New York scored its only runein the first inning and until the sixth when Adams led off with a triple it looked like one run would de-

cide the game. Another hit put Adams across with the run that knotted the score and in the seventh Pittsburgh scored again. From then on until the ninth Adams was not in danger. A sharp double and a single in the ninth by New York came near spilling the beans, but a quick throw to the plate headed off a run that would have again tied the score.

New York has now won 90 games and lost 55, for a percentage of .620, while Pittsburgh had won 85 games and lost 57, for a percentage of .599. The score by innings follows:

county was today searching for five men believed to have been connected with the robberies, the first of which was discovered by a mail clerk making his inspection at Victorville Saturday and the second at Barstow yesterday.

"It will take several weeks to ascertain whether any of the packages were sent to Santa Ana," declared Overshiner, "but it is very possible that some of the stolen mail was coming here. "It will take several weeks to

make sure. In the natural course of events, a man who had ordered goods from a mail order house in New York would wait a reasonable time for its delivery before writing the firm and making inquiries. Following such inquiries, an investigation would be started by the New York firm and eventually it would be ascertained whether the goods hill been sent by that particular sealed car. Then, and then only,

would we know surely that any of the losers were Santa Anans." Practically every package in the two cars had been ransacked and all articles of value removed. One of the thieves had discarded an old pair of shoes for a pair which he found in one of the boxes. Others, lying over the floor of the car, indicated that he had tried many pairs before findng one to suit.

'Paper" Anniversary Is Inspiration for Delightful "500" Party

Mrs. Olive Lopez entertained pleasantly on Saturday evening last at her home on East Fifth street, in honor of the second wedding anniversary of Mr. and Mrs. James A. Manwarring, of Hollywood.

Mrs. Manwarring is Mrs. Lopez' laughter, formerly Miss Olive Lopez. The pretty home was adorned with a color motif of yellow, streamers of crepe paper in combination with clusters of marigolds and nasturtiums being artistically utilized. The hours sped happily away with progressive "500," Mrs. Charles Har-

bison, of Anaheim, taking the first prize and Mr. Ed F. Waite the consolation. Guessing advertisements cut from

magazines proved interesting and Mrs. Sam Mallett, of Hollywood, proved the most clever in naming the articles and was awarded the Refreshments, carrying out the

color scheme, were served by the hostess, assisted by her daughter, Miss Isabel Lopez, and her niece, Miss Charlotte Fine, and Miss Maxine Keefer, of Hollywood. The tables were centered with graceful baskets filled with candies and tied with yellow ribbons. The cakes were iced in yellow.

While at the table Mr. and Mrs. Manwarring were showered with congratulations and dollar bills, as the second is the "paper" anniversary; other gifts were also received. Those enjoying the pleasant event, aside from those named were:

Mr. and Mrs. Orien Moore, Mr. and Mrs. F. E. Growers Commenting Upon Absence of Blight from Season's Product

Walnut picking time is here, which means the time of pocket money for the school boys. Already tents are seen in the walnut groves, where entire families live while working in the groves.

A noticeable difference is noted in the ranks of the unemployed here walnut picking is furnishing employment to men, women and chil-

A peculiar condition is noted this year in the walnuts. The usual weight of a sack of walnuts is from 60 to 65 pounds. This year, due to the lightness of the shells, the nuts in many groves are running only 53 to 55 pounds to the sack. This is a decided advantage to the consumer. Find Little Blight

An absence of the blight, caused some years by the hulls sticking to the shells of the nuts, is a cause for

favorable comment by the packers. The first shipment of nuts of the season was received at the packing house of the Santa Ana Walnut Growers' association last Monday. The packing house will start its fourth year this season and will ema specialty. Hats remodeled. The Write or see Flournoy for call. 609 Frances Hat Shop, 433 Spurgeon Bldg. S. Garnsey street.

Miss Leah A. Helm, residing at 3438 16th St., San Francisco, Cal., chief operator for the Pacific Telephone Co., relates a remarkable experience with Tanlac. Here is her

statement in her own words:
"For fully a year and a half before I took Tanlac I was as run down as a person could be not to give up entirely. I had no appetite at all, was so nervous and restless I could scarcely sleep at night, and felt so miserable I could hardly attend to my duties. I kept trying one thing and another but seemed to be getting worse all the time. I was even advised to make a change in climate, and I was greatly discouraged and

worried over my condition.
"One day after father read a Tan-lac statement that so impressed him he went down to the drug store and got a bottle of the medicine and insisted on my taking it. I have been thankful a thousand times that he did, for that proved the turning point in my suffering, and since taking five bottles I am feeling like an ing five bottles I am feeling like an altogether different person. Why prettier teeth?

This method brings whiter, prettier teeth because it fights the film. Your teeth are now covered with a viscous coat. Feel it with your tongue. It clings to teeth, enters crevices and stays.

Old brushing methods do not remove it all. Enough remains to make the teeth both dingy and unsafe. That is why teeth look cloudy. The film-

coats absorb stains. Film also causes most tooth troubles. And, under old methods, all those troubles have been constantly increas-

How film ruins teeth

Film dims the teeth's luster. It also forms the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. Many other serious troubles, local and internal, are

Countless people find that teeth brushed daily still discolor and decay. The main reason lies in that film.

The importance of the Kinslow manufacturing industry in Santa Ana is probably not realized by the average citizen. To one who is not closely following the devel-opment in local enterprises the scope and character of the work produced at the Kinslow plant will be a revelation. The machine works is one of the rapidly growing concerns that are here to stay; here to develop and add to the importance and wealth of Santa Ana. The Founding of a Great New Oil Field!

STANDARD'S TORRANCE WELL

Thousands Have Waited for This Great News!

The slush pits are running with OIL! Since the hour the big drill broke into the rich oil sand, the tremendous pressure from beneath has forced, several times, the oil high up on the derrick! Standard's great deep test TORRANCE WELL, has proven for oil the BOLSA CHICA DOME--the greatest dome structure between the Signal Hill and Huntington Beach Oil fields. It has proven for oil the connecting link between TWO of the greatest producing and potential oil fields in California!--possibly a new district rivalling or surpassing either!

And OUR 30 ACRES, leased to the same great company--STAND-ARD OIL--is only 200 yards from the property on which the great TORRANCE WELL stands! We consider every one of these acres proven. Furthermore, STANDARD OIL must drill on THIS acreage by October the 28th or abrogate the lease; a lease that may be worth millions! We have contended all along that "Standard Oil knows the oil business." Do you doubt it NOW? Certainly it means everything to our lot owners!

We Are the First!

and original company here selling potential oil lots. We have many imitators but none of them can sell you lots in a PROVEN FIELD leased to THE STANDARD OIL CO.

A fair, square deal

We have conducted a clean campaign—free from MISREP. RESENTATIONS or EXTRAVA-GANT STATEMENTS.

We invite the fullest investigation of our methods — our proposition and our property.

Don't Buy If it Means a Hardship

From the first we have repeatedly stated that any oil speculation was a gamble—and while it now seems that the PROVING OF BOLSA CHICA DOME has practically eliminated all the risk—we still say—don't buy unless you are able to take a chance—but a chance that is on the level.

OIL AUTHORITIES PREDICT 2000 TO 5000 BARRELS!

No one can say at this moment just HOW LARGE the well may be. Practical oil men who have been at the well since it struck the oil sand, estimate it from 2000 to 5000 barrels daily. A heavy T-valve has been thrown into place to keep down the tremendous gas pressure—a significant indication of what the well may produce.

The perforated casing is to be lowered into the sand. The sluice boxes and the sumps are already running full with the black liquid gold.

And Still the Old Price of \$500 Buys a Lot Today Subject to Advance

Without Notice at Any Moment!

Use Your Good Business Judgment

Why Gamble in Oil Stocks? Why Buy Wild Cat Land Leased to Inexperienced, Poorly Financed Companies, When You Can Buy

Lots in a PROVEN OIL FIELD Leased to Standard Oil Co.

There are only a few left! Think of the opportunity to OWN the land—land which may, within a few months, be worth many thousands of dollars. Lots in Huntington Beach and Signal Hill which could have been bought a short time ago for a few hundred dollars are today selling for tens of thousands. It has happened on both sides—how about YOUR LOTS in between, almost within a stone's throw of the great Torrance Well?

And bear in mind that every single lot purchased entitles the owner to share prorata in every barrel of oil taken from the entire 30 acres—no matter on which lots the wells may be drilled, or the number of wells drilled all lot owners will share alike in any and all royalty.

OWN THE LAND! It is the fairest and surest way to make money in OIL. It cannot be compared with "oil stocks" in any way. It has made and it is making right now more millionaires than any other phase of oil investment. Why can't YOU make money with them? Why can't you at least investigate, learn about a clean, square deal sponsored by reliable men? We warn you right now that the Torrance Well has set things moving—a week or ten days should see new and tremendous developments. And your opportunity to buy a lot now—at the OLD PRICE—comes once in a lifetime.

Come with us to the land, or drop in at once to our office without a bit of obligation. But ACT—ACT—ACT—ACT!

Come Us FREE—Wednesday Morning to see the Great Torrance Well

We wouldn't have you miss this trip for anything. Think of it!—without any obligation, without expense—WE TAKE YOU through the Signal Hill and Huntington Beach oilfields, in and out among the great producers, to the BOLSA CHICA DOME!

Almost in the shadow of the TORRANCE WELL you are served with a real dinner, and enjoy a snappy, to-the-point lecture on the oilfields.

Folks, we guarantee you a wonderful time. Bring your friends. If you are a lot owner, come with us. If you are not, come with us. You are our guest and will be treated courteously. Our big comfortable busses are a pleasure to ride in. But, for goodness sake, make your reservations for seats early, and be on hand early. Don't be disappointed.

If you can't come with us, drop in at our office and learn all about these lots, and the TORRANCE WELL. It is certainly worth your while.

OUR BIG COMFORTABLE BUSSES LEAVE PROMPTLY AT 11 O'CLOCK STARTING WEDNES-DAY AND EVERY DAY EXCEPTING MONDAY, AS LONG AS THE FEW LOTS LAST!

Are You Slaving in Your Kitchen -or Is Your Kitchen Working For You?

If your kitchen is "merely" a place where you make yourself completely "fagged out" before each meal it is not being operated at full efficiency.

The domestic science lectures and demonstrations to be conducted by---

Mrs. Florence Austin Chase at Register's Cooking School and Better Homes Exposition

will show you how to have better cooked foods at the minimum expenditure of money, time and energy.

The modern science of home making is a tremendous improvement over the "back-breaking" housekeeping of your mother's day. Mrs. Chase is a recognized expert in every branch pertaining to home making. You will find this out when you prepare your meals in accordance with her suggestions. You will learn that the "science" of cooking will require less time and that a smaller amount of food will provide more nourishment when it is so cooked that it brings out the food values therein.

Your family will be the healthier and better nourished; your guests will exclaim with delight over every new triumph they find at your table; and you will find more hours at your disposal for leisure and recreation after you hear Mrs. Chase's lectures.

The best way to help Santa Ana attract more home makers of an unusually high type is to help make it famous as a city of Better American Homes.

This you can do by attending the lectures, demonstrations and exhibits at the Armory as guests of The Daily Register.

Positively no attempt will be made to sell you anything at these activities during Better Homes Exposition. The Register invites you as its guest to help make Santa Ana a better city in which to live. Admission is free.

Be sure to bring a saucer and spoon and your pencil and notebook. You'll need the first to sample Mrs. Chase's delicious dainties and the second to jot down "when, where

PRIZE REGISTER'S \$8000 CONTEST CIRCULATION BUILDING TODAY OFFICIALLY

Three Big Touring Cars, Thirty Prizes

CONTEST NOW OPEN

ONLY SEVEN SHORT WEEKS

NOMINATE YOURSELF OR A FRIEND TODAY

HERE'S THE PLAN IN BRIEF

How To Enter—What To Do

1.—SEND IN THE NOMINATION BLANK—It counts for 10,000 Votes. 2.—CLIP THE 50 VOTE COUPON—Collect all of these you can and get your friends to save them for you. Each coupon counts for 50 votes. 3.—SEND FOR RECEIPT BOOKS—As soon as we receive your entry we will send you a receipt book so that you may take subscriptions. Every paid in advance subscription counts for votes according to the schedule below; 4—CLIP "FIRST SUBSCRIPTION COU-PON"—This coupon accompanied with any subscription payment for six months or more to the Santa Ana Register counts for 10,000 EXTRA VOTES in addition to the usual number. You do not have to be a subscriber to the Register to compete. 5—SEE YOUR FRIEND.—Get your friends and acquaintances to subscribe. Also organize them so they will assist you to get subscriptions from their friends. 6.—USE THE TELEPHONE—Call up everyone you know. Tell them you are in the campaign and ask for their support, 7.—ONCE IN, STAY IN—Don't get discouraged or let anyone try to discourage you. Someone will win the big cars. Why not you? 8.—GET COMPLETE INFORMATION—Call, write or phone the cmapaign manager at the Register, Santa Ana, California.

Here's How To Succeed

It takes votes to win and votes are secured as follows: First, by clipping the coupons appearing in each issue of the Register. Eegin gathering them now while they are worth 50 votes each. After next week these coupons will be reduced to 25 votes and the following to only 10 votes and after that they will be discontinued entirely. The only restriction placed upon voting these coupons is that they must be deposited at the Contest Headquarters on or before the expiration of the date appearing thereon. Get all you can, and get your friends to save them for you too—they are FREE. Another and faster way to get votes is by securing new and renewal subscriptions to the Register. For each subscription turned in a certain number of votes are issued, the number varying according to the amount collected and during which "period" same is received at the Contest headquarters. So you see the more votes you get the better your chances are to earn the grand capital prize.

The shows are to be staged under the auspices of the Anaheim Post of the American Legion at the new arena on the property of the Ana-

United Press Leased Wire NEW YORK, Sept. 19.—No one can blame the New York Giants for or-dering world series uniforms today.

Wednesday night's boxing show at the Delhi arena promises to be the best that Boyd Ellis has arranged this summer.

There are five high-powered bouts on the bill and, according to all dope, every one should be a thriller.

The main event is a return engagement between Kid Mexico and Bert Tribby. When these birds clashed at Delhi about a month ago they put up the best mill local fans dering world series uniforms today. The Giants practically have cinched the National league pennant.

Ten games remain in the New York schedule, and the Giants have a lead of four and one-half games. If the New Yorkers only split even, the Pirates will have to win twelve games to cop the pennant. Figuring the way the Giants are going and looking at the barrier of five games

FOR HOME IMPROVEMENT

The mandate to go into all the world and preach the gospel to every creature is commonly supposed to refer to religious enlightenment. In the farming regions of the Middle West they interpret the command more broadly, and by periodic home-improvement convenient and healthful living conditions to every county, no matter how sparsely settled.

An Indiana woman in the Country Gentleman claims for her state the honor of originating these tours. The object of the tour as outlined is to carry all sorts of labor-saving devices out into the country and show how they work. Experts from the state county seat go along to exhibit and demonstrate every sort of mechanical appliance for making work latest styles in wall paper, furniture and all sorts of in ordinary life would be called dishonest.

Such action, too, would put at a disadvantage

Meetings advertised beforehand are held at different homes and the county is covered so thoroughly state and respect for its laws than those who did not that if any farmer or his wife remains in ignorance of modern appliances or fails to adopt them it is not for lack of opportunity to know better.

AMERICANISM AND KLAN

The fine word "Americanism" has been used to cloak un-American purposes so that any man or organization professing "100 per cent Americanism," must live "Americanism" as well as claim it in order to be convincing.

Concerning the secret order known as Ku Klux Klan, it is said that a good deal of its astonishing growth has been due to its professed Americanism. The Klan is now being assailed as an organization at variance with certain basic American principles. It life is the neglect, by so many parents, of the moral for the creation of enmity among classes of citizens whose real need is fraternity, for the denial of oppor-

The publication of the history and the "secrets" of this order has focussed national attention on the klan. Congressmen are talking of investigation, and the department of justice is said to be looking into the matter. There certainly ought to be an authoritative public inquiry of some kind, if for no other aware of the unwholesomeness of that into which purpose than to vindicate the "invisible empire" if, they are being dragged. as its "emperor" maintains, it has been grievously wronged. Americanism itself demands that, and Americanism must be vindicated, regardless of the fate of anything smaller than America itself.

FOR LOCAL GOVERNMENT

Writing to the conference of town and county administration at the University of North Carolina, President Harding remarks:

There has been an inevitable tendency, because of the overwhelmingly important work which confronted the national government, to rely unduly upon it for the performance of many functions which can at Annapolis and West Point.—National Republican. only be discharged properly by local administrative

The tendency has long been noted, and has grown rather than diminished with the increasing burdens of the federal government. The very fact that the work at Washington has become so "overwhelmingly important" in these war and reconstruction years is nger reason than ever why cities and states should do their best to take care of their own affairs, instead of trying to "pass the buck" to Uncle Sam.

It may be observed, too, that local communities ble figures.—Pasadena Sun.

are usually better able to handle their problems than the national government is to do it for them, in spite of the fact that Washington has great resources of money and talent to draw upon, and federal efficiency at its best is very high. Local interest, local knowledge and local talent are usually capable of meeting local situations, if the citizens only think so. And by facing local difficulties and overcoming them, local citizenship—which is really the only citizenship there is-grows and strengthens.

Local government is the stronghold of democracy. Federal government itself would break down eventually if it were not fed continually from a thousand local springs of good citizenship and administrative

Return Payments

Job Wood, Deputy State Superintendent of Pub more broadly, and by periodic home-improvement when he stated that aliens who paid the registration tours spread the gospel of better homes and more tax would not have to be repaid unless at the time

of payment they made a demand for a refund.

He also contends that because there is no pro vision in the law for a refund, none can be legally demanded.

The legal point may be left to those learned in the law for a decision. But the moral obligation of the state and the counties in this matter cannot be

And when in all your wanderings a man like that is found, his head will be among the clouds—his feet upon the ground. The Reverend J. G. Kennedy as pastor in our town, has proved himself a leader of a very wide renown. Man's spiritual anatomy is just an open book into whose printed pages he scarcely needs to look.

A man of all the passing years and not of just the hour, in every good and worthy cause, we find that he's a power. The United Presbyterians of the good old Scottish clan all know that as their pastor he is every inch a man.

THE MERMAID TAVERN

Souls of Poets dead and gone, What Elysium have ye known, Happy field or mossy cavern, Choicer than the Mermaid Tavern? Have ye tippled drink more fine Than mine host's Canary wine? Or are fruits of Paradise Sweeter than those dainty pies Of Venison? O generous food! Drest as though bold Robin Hood Would, with his Main Marian, Sup and bowse from horn and can.

I have heard that on a day Mine host's sign-board flew away Nobody knew whither, till An astrologer's old quill To a sheepskin gave the story-Said he saw you in your glory Underneath a new-old Sign Sipping beverage divine, And pledging with contented smack The Mermaid in the Zodiac!

The War Incubus H. H. WINDSOR in Popular Mechanics

It has recently been computed that the money loss, due di-rectly and indirectly to the war and making no allowance whatever for the loss of human life, is \$350,000,000,000. Like the number of miles to some distant star, the amount is so staggering as to cause a sort of mental insensibility; because even great financiers, accustomed to thinking in large amounts, can but feebly sense this vast am-

It is good for us to reflect on the price we are all paying for Germany's war. But for that war the three hundred and fifty thousand millions would have been spent for churches, houses, roads, schools, presents for little children, savings against old age and pretty dresses for the young. Millions of comforts the world would have had during the seven years past. But it is all gone, and billions of it yet unpaid, which will tax the world for at least two generations.

Ten years ago we spent less than \$250,000.000 on our army and navy, This year we are spending close to \$1,375,000,000 and have just emerged from a war on which we spent \$24,000,000,000 and have now on hand, left over, much of it unused and

still in original packing cases, millions upon millions of supplies, ready to use and already

In spite of this, we are spending nearly a billion and a half on the War Department; nearly 50 per cent more for this department alone than all the expenses of government combined, 10 years ago. The people of the whole world are crushed under the burden of taxation, the most of which is for or because of war. It will startle most people to learn that of all the taxes we are now paying, out of each dollar 87 cents are spent for war.

With the world war-sick; with no one in position to really jeopardize us; with other nations nearly or practically bank-rupt, our liability to dangerous attack was probably never less than now, or for a good many years to come. With most of the world anxious to reduce the burden of armament, let us hope that the effort of President Harding to secure even a sort of gentlemen's agreement, which would be a first and long step, will receive the outspoken support of every citizen. When public sentiment really insists upon disarmament it will come.

When the Elks have no horns they are very peaceable and live together as meekly as lambs. But when they get their horns again they go on the war path and fight one another to the death. By the end of September their horns are fully grown and polished ready for business. Every male Elk then wants to show the females what a great fighter he is. He is now fat and sleek and his muscles are strong and his horns beautiful and large, and why wouldn't he want
